MEMORANDUM FOR RECORD

SUBJECT: Golden State Fence Company

To whom it may concern,

This correspondence is in reference to the above listed Contractor. The Army Corps of Engineers has a long standing relationship with Golden State. They have constructed many fence projects over the years, including our recent Force Protection projects and their performance has always impeccable. They are professional, reliable and extremely competent. They have a commitment to quality and are ethically sound. We have never encountered any problems with any personnel they have used on our installation. They have been part of the South Pacific Division fencing IDIQ for the past 10 years and have completed projects on other installations that fall within our division footprint without any personnel problems.

These bases include but are not limited; Vandenburg Air Force Base, Edwards Air Force Base, China Lake Naval Station, Sierra Army Depot, and Victorville Federal Prison. We have several on going contracts with Golden State and look forward to working with them in the future.

Any questions regarding Golden State's performance on this installation can be directed to the individuals listed below.
